

TABLE OF CONTENTS

1. INTRODUCTION AND REGIONAL WATER MANAGEMENT GROUP

1-1	Introduction.....	1-1
1-2	Regional Water Management Group.....	1-2
1-3	Overview of ICWMP Process.....	1-4
1-4	Report Organization.....	1-5

2. TOMALES BAY WATERSHED REGIONAL DESCRIPTION

2-1	Suitability for Integrated Coastal Watershed Management.....	2-1
2-2	Boundaries.....	2-3
2-3	Critical Coastal Areas	2-4
2-4	Land Use.....	2-10
2-5	Water Sources, Supplies and Demand.....	2-16
2-6	Major Water-Related Infrastructure.....	2-25
2-7	Water Quality.....	2-30
2-8	Ecological Process and Environmental Resources.....	2-46
2-9	Social and Cultural Attributes.....	2-56
2-10	Economic Conditions and Trends.....	2-57
2-11	Relationship with Other Regional Efforts.....	2-58

3. ICWM PLAN OBJECTIVES

3-1	Process for Determining Objectives.....	3-1
3-2	Summary of Key Findings & Management Issues.....	3-1
3-3	ICWMP Objectives.....	3-10
3-4	Issues & Questions For Future Consideration.....	3-13

4. WATER MANAGEMENT STRATEGIES & INTEGRATION

4-1	Selected Management Strategies.....	4-2
4-2	Management Strategies That Are Not Applicable.....	4-13
4-3	Integration of Strategies.....	4-13
4-4	Relationship of Strategies to ICWMP Objectives.....	4-18
4-5	Benefits of Multiple Management Strategies.....	4-18
4-6	Relationship to Other Integrated Water Management Plans.....	4-18

5. REGIONAL PRIORITIES

5-1 Regional Priorities..... 5-1
 5-2 Project Identification and Prioritization Process..... 5-3
 5-3 Implementation Priorities..... 5-5
 5-4 Process for Priority Modification..... 5-5

6. IMPLEMENTATION

6-1 Implementation Projects and Plans..... 6-1
 6-2 Implementing Agencies and Responsibilities..... 6-2
 6-3 Linkages Between Projects..... 6-3
 6-45 Economic and Technical Feasibility 6-4
 6-5 Timeline for Implementation 6-5

7. IMPACTS AND BENEFITS

7-1 Potential Benefits and Impacts 7-1
 7-2 Advantages of an Integrated Regional Plan..... 7-6
 7-3 Interregional Benefits and Impacts..... 7-7
 7-4 Relationship to Environmental Justice..... 7-8

8. TECHNICAL ANALYSIS AND PLAN PERFORMANCE

8-1 ICWMP Development..... 8-1
 8-2 Performance Evaluation Measures..... 8-8
 8-3 Adaptive Management..... 8-11

9. DATA MANAGEMENT

9-1 Data Management..... 9-1
 9-2 Data Dissemination..... 9-3
 9-3 Existing and Needed Monitoring 9-4
 9-4 Support of Statewide Needs..... 9-13
 9-5 Data Integration into SWRCB Surface Water Ambient Monitoring Program 9-14

10. FINANCING

10-1 Implementation Funding..... 10-1
 10-2 Ongoing O&M Support and Financing..... 10-2
 10-3 Beneficiaries..... 10-3

11. STATEWIDE PRIORITIES

11-1 Overview..... 11-1
 11-2 ICWMP Development..... 11-1
 11-3 ICWMP Contribution to Statewide Priorities..... 11-3

12. RELATION TO LOCAL PLANNING

12-1 Local Plans, Documents and Programs..... 12-1
 12-2 Coordination with Local Agencies..... 12-2
 12-3 ICWMP Relationship to Local Plans..... 12-3

13. STAKEHOLDER INVOLVEMENT

13-1 Stakeholder Identification 13-1
 13-2 Stakeholder Process 13-3
 13-3 Partnerships Developed During ICWMP Process..... 13-6
 13-4 Disadvantaged Communities and Environmental Justice..... 13-6
 13-5 Potential Obstacles to Plan Implementation 13-9

14. AGENCY COORDINATION

14-1 Agency Coordination..... 14-1
 14-2 Regulatory Support..... 14-2

**15. PLANNING DOCUMENTS & TECHNICAL STUDIES
 USED IN ICWMP DEVELOPMENT**

15-1 Plans..... 15-1
 15-2 Technical Studies & Assessments..... 15-3

LIST OF FIGURES

1. Regional Location
2. Tomales Bay Region & ASBS Areas
3. Tomales Bay ICWMP Management Group
4. Critical Coastal Areas
5. Streams, Watersheds and Hydrological Features
6. Groundwater Basins
7. Existing Land Use
8. Publicly Owned Lands
9. Major Drinking Water Facilities and Infrastructure
10. Point Reyes Station Storm Drainage Conditions
11. Woodacre Storm Drainage Conditions
12. Bolinas Storm Drainage Conditions
13. Floodplains and Flood Zones
14. Septic Parcels Near Water Bodies
15. Location of Discharges into Duxbury Reef ASBS
16. Location of Discharges into Point Reyes Headlands ASBS
17. Resident and Migratory Species Benefiting From Wetlands Restoration
18. Sensitive Fish Habitats
19. Wetlands
20. ICWMP Priority Project Locations
21. Percent of Families Below the U.S. Poverty Level

LIST OF TABLES

2-1	Existing and Future Water Demand.....	2-21
2-2	Existing and Potential Agricultural Water Sources.....	2-43
2-3	Basin Plan Beneficial Uses.....	2-35
2-4	Pathogens TMDL – Numeric Targets for Fecal Coliforms for Tomales Bay and Its Tributaries.....	2-37
2-5	Total Juvenile Salmonid Population Estimates, 1995-2006.....	2-55
2-6	Coho Redds in the Lagunitas Creek Watershed, 1982/83 – 2005/06.....	2-56
4-1	Integration of Management Strategies.....	4-15
4-2	Relationship of Management Strategies to ICWMP Objectives.....	4-18
4-3	Management Strategies Implemented by ICWMP Projects.....	4-22
5-1	Submitted Projects.....	5-8
5-2	Ranking of Submitted Projects.....	5-10
5-3	Short-Term Project Priorities.....	5-12
5-4	Project Summary by Project Type.....	5-13
6-1	Summary of Submitted Project Descriptions.....	6-3
6-2	Project Description and Status Summary.....	6-9
6-3	Management Strategies Implemented by Short-Term Priority Projects.....	6-16
9-1	Summary of RWQCB Monitoring Parameters.....	9-6
10-1	Summary of Project Funding	10-4
11-1	ICWMP Projects that Implement State Non-Point Source Plan.....	11-8
11-2	ICWMP Contribution to Statewide Priorities.....	11-11
11-3	ICWMP Contribution to State Preferences	11-14
12-1	Local Plans and Documents.....	12-3
14-1	Summary of Agency Coordination.....	14-3

APPENDICES (INCLUDED ON THE ICWMP CD)

Appendix A	Plan Adoption by Regional Water Management Group
Appendix B	Letters of Support
Appendix C	Disadvantaged Community Calculation Documentation
Appendix D	San Francisco Bay RWQCB Basin Plan List of Identified Beneficial Uses
Appendix E	Summary of Regional Water Quality Monitoring Efforts
Appendix F	Project Summaries and Scoring/Ranking Results
Appendix G	Recommended Project Forms
Appendix H	Other Project Concepts and Recommendations
Appendix I	Department of Fish And Game Coho Recovery Recommendations for the Tomales Bay Watershed
Appendix J	SWRCB Order WR95-17 Provisions
Appendix K	ASBS Watershed Assessment
Appendix L	Septic Solutions Report
Appendix M	Stormwater Management Assessment
Appendix N	Species of Local Interest (SOLI)

LIST OF ACRONYMS AND ABBREVIATIONS USED IN THIS PLAN

ACR – Audubon Canyon Ranch, Cypress Grove Research Center
 ASBS – Area of Special Biological Significance
 AFY – Acre feet per year
 Basin Plan – RWQCB Water Quality Control Plan
 BCPUD – Bolinas Community Public Utility District
 BMP – Best Management Practices
 CCA – Critical Coastal Area
 CCC – State of California Coastal Commission
 CDHS – State of California Department of Health Services
 CDFG - State of California Department of Fish and Game
 Council – Tomales Bay Watershed Council
 CWA – Clean Water Act
 CWC – California Water Code
 DWR – California Department of Water Resources
 EAC – Environmental Action Committee of West Marin
 EHS - Marin County Department of Environmental Health Services
 EQIP – Environmental Quality Incentives Program
 ESA – Endangered Species Act
 GFNMS – Gulf of the Farallones National Marine Sanctuary
 GGNRA – Golden Gate National Recreation Area
 GIS – Geographic Information Systems
 ICWMP – Integrated Coastal Watershed Management Plan
 IRWM – Integrated Regional Watershed Management
 IRWMP – Integrated Regional Watershed Management Plan
 IPUD – Inverness Public Utility District
 JARPA- Joint Aquatic Resources Permit Application
 LWD – Large Woody Debris
 MALT – Marin Agricultural Land Trust
 MCDHHS – Marin County Department of Health and Human Services
 MRCD – Marin Resource Conservation District
 MCSTOPPP – Marin County Stormwater Pollution Prevention Program
 MMWD – Marin Municipal Water District
 NGO – Non-governmental organization
 NOAA – National Oceanic and Atmospheric Administration
 NMWD – North Marin Water District
 NPS – Nonpoint source pollution
 NRCS – Natural Resources Conservation Service
 NSSP – National Shellfish Sanitation Program
 OSDS – Onsite Sewage Disposal System
 PRBO – Point Reyes Bird Observatory Conservation Science
 PRNS - Point Reyes National Seashore
 PRNSA - Point Reyes National Seashore Association
 QA/QC – Quality assurance /Quality control

RWQCB - Regional Water Quality Control Board
SCWA – Sonoma County Water Agency
SFRWQCB - San Francisco Bay Regional Water Quality Control Board
SPAWN – Salmon Protection and Watershed Network
SWAMP – Surface Water Ambient Monitoring Program
SWQCB - State Water Quality Control Board
SWQPA – State Water Quality Protection Areas
TAC - Technical Advisory Committee
TBA- Tomales Bay Association
TBAG – Tomales Bay Agriculture Group
TBSTAC – Tomales Bay Shellfish Technical Advisory Committee
TBWC- Tomales Bay Watershed Council
TMDL – Total Maximum Daily Loads
TSS – Total Suspended Sediments
TU – Trout Unlimited
UCCE – University of California Cooperative Extension
UC –University of California
UCD – University of California at Davis
UNESCO – United Nations Educational, Scientific and Cultural Organization
USACE – U.S. Army Corps of Engineers
USCG – U.S. Coast Guard
USDA – U.S. Department of Agriculture
USDA-CREP – Conservation Reserve and Enhancement Program
USEPA – U.S. Environmental Protection Agency
USFWS – U.S. Fish and Wildlife Service
USGS – U.S. Geological Survey
USNPS – National Park Service
WDR – Waste Discharge Requirements
WMI – SWRCB Watershed Management Initiative
WMS – Waste Management Systems
WQS – Water Quality Standard
